| **Level up** for the future.

Lean Six Sigma White Belt

The perfect introduction to a world-renowned methodology.

Lean Six Sigma White Belt

The Lean Six Sigma White Belt program is a six-hour, self-paced, online learning module, designed to give those without prior knowledge of the methodologies a brief overview of Six Sigma and Lean principles, including exactly what it is and why it is being used in businesses around the world to streamline operations and eliminate waste. It is a perfect introduction to the world of Lean Six Sigma and prepares anyone to participate in a Lean Six Sigma project at their organization.

White Belt is a pre-requisite for anyone planning to progress through the learning path to achieve Black Belt status. This module is included in the [Masters Certificate in Lean Black Belt](#) program.

Grow your career.
Level up for the future.

6-hours of self-paced study

Lean Six Sigma White Belt

Through its carefully defined processes and methods it prioritizes the Voice of the Customer in reducing non-value-added processes and eliminating waste and errors.

Participants in this six-hour, self-paced online learning module will gain a full understanding of Lean and Six Sigma principles and how they combine to create an efficient framework that allows organizations to constantly strive for improvement. They will also be introduced to the many terms, definitions, tools and processes they will encounter, and they will move through the various levels of Lean Six Sigma proficiency.

White Belt is a pre-requisite for anyone planning to progress through the learning path to achieve Black Belt status. This module is included in the Masters Certificate in Lean Black Belt.
